

Learn how to build and code with

MINDSTORMS[®]

EV3

Students in grades 5th-8th are invited to join Coding Club!

Coding Club will meet Wednesdays beginning on February 27th, in the Elem Lab from 3:30-5:00.

We will learn how to build various EV3 designs and will create codes to have them come to life!

Space is limited so spots will be on a first come, first serve basis.

Student _____

Grade _____ **Homeroom** _____

My child has permission to participate in Coding Club for this year and that I need to provide transportation home after coding club. I and my child also understand that all school rules apply to all extracurricular activities.
